NEA Hates Children, America and Common Sense

By *Linda Harvey*
Reports from the recent annual meeting of the National Education Association, the nation's largest teacher's union, are shocking. The new projects approved by delegates from schools all over the country, added to the collective policies endorsed by this organization over many years, are heartbreaking and portend disaster for our country and our schools.

The reality is that, with almost 3 million members and scads of money, whatever the NEA supports is often where America goes. The Democratic Party jumps to the NEA's tune. And the union's actions certainly impact the education our children are receiving—or not receiving.

Provisionally, many Americans are waking up and rejecting what this corrupt organization is selling.

At this year's meeting, delegates rallied outside the Orlando convention center, waving rainbow signs and placards proclaiming "Freedom to Teach" and "Freedom to Learn."

It's Ohio Law-- So Where's the Funding? Abstinence Ed Dropped by Ohio GOP

Linda Harvey, Mission America-- Republicans in Ohio hold a super-majority in the state legislature, and yet the recently passed two year budget contains little or nothing for abstinence-until-marriage sex education in Ohio schools. So the admirable efforts of the nine organizations comprising the Ohio Adolescent Health Centers, serving tens of thousands of students each year (over 500,000 since 2016) will be severely curtailed unless Republicans can find a way to come up with the funding these groups were counting on.
